ADDITIONAL PROGRAM INFORMATION

Program Capacity

The Associate Degree in Nursing Option has a limited number of seats. In general, the College accepts 32 students to begin the day section.

The criteria describe the MINIMUM standards that must be met in order to be reviewed for admission to this option. Currently, the number of qualified applicants exceeds the number of available seats. Consequently, once it has been determined that the applicant meets the MINIMUM criteria, he/she is admitted on a rolling admission process.

Wait List Status

A Wait List for qualified applicants who are not initially accepted into the program. The Wait List is approximately 30% of the program capacity. Students are called from the Wait List on a space available basis. Students who are placed on the Wait List, and for whom a seat does not open during the current admission cycle, are given first option on admission for the following year.

If there are significant changes in the admission criteria, students on the Wait List may be required to comply with the new criteria. This decision is at the sole discretion of the academic program.

Health Requirements

Information regarding the College's health requirements will be sent to you upon your acceptance to the program.

Information about the program's Technical Standards, describing the physical and behavioral characteristics required to successfully complete the program, are available at our website, <http://www.necc.mass.edu/academics/courses-programs/areas/health/required-form/>, we encourage you to review these as soon as possible.
