Academic Placement & Testing Center

ACCUPLACER Faxed Scores

NECC will accept ACCUPLACER raw scores only. *We do not accept placements.*

We require all of the following tests to determine course placements: ACCUPLACER Reading, Sentence Skills, WritePlacer, Arithmetic, Elementary Algebra and College Algebra. **This may vary on an individual basis based on waivers.*

If the student has not completed all of the required tests for placement, they will be notified regarding the tests needed to finalize their placement.

Students must contact the institution where they took the ACCUPLACER test and have them fax the scores directly to the Academic Placement and Testing Center at 978-556-3169 or have them email the scores to us at testing@necc.mass.edu. *We only accept scores if they are faxed or e-mailed directly from another college*.

**If a prospective student brings in a copy of their ACCUPLACER scores, the Academic Placement & Testing Center will do an "unofficial evaluation" but will not use the hand carried version for official placements. ****These prospective students should be referred to the Academic Placement & Testing Center in TC-128 in Haverhill or L-200 in Lawrence, or call ext. 3410 in Haverhill or ext. 7430 in Lawrence for assistance.*

Placements will be determined based on mandated state-wide cut scores and internally developed cut scores.

**Once placements have been determined, they will be entered into Banner. ****If the student has not obtained an NECC student ID, their placements will be available on the Not in Banner (NIB) list until an ID number is generated. Students should be instructed to obtain an ID number as soon as possible. ID numbers are required for all students who walk in to assess at the Academic Placement & Testing Center as well as any of our off-site affiliates.*

Faxed scores will only be accepted up to 1 year from the date the student tested at another college.

Resulting placements will adhere to the same MAPP Policy regulations as students who test at NECC.

Any questions should be directed to the Donna Felisberto at 978-556-3410
