

**NECC19-AA001 Competency-based Pathway in Early Ed and Healthcare
Questions & Responses**

1. Question - The RFP calls for a convening on Innovations in Education and Training for Healthcare Careers. The convening will require some direct expenses such as food and beverage for participants. Would these be paid directly by the College rather than by us as consultants? Should they be included in the budget narrative? Also, we have been assuming that the convening could be held at a College or Commonwealth facility at no cost. Should such plans also be included in the narrative
 - Answer - Bid responses should outline all associated costs including but not limited to room rental and any direct expenses that will not be covered. Please reference section 4.4 and Attachment G.
