ADDITIONAL PROGRAM INFORMATION

Good Academic Standing: All students applying to the Nursing Program must be in Good Academic standing based on NECC Academic Standards and Progress Policy.

Program Capacity

The Practical Nursing option has a limited number of seats. In general, the College accepts 30 students.

NOTE: Computer Requirements

All students are required to have a Windows compatible laptop (not a tablet) for test taking.

These criteria describe the MINIMUM standards that must be met in order to be reviewed for admission to this option. Currently, the number of qualified applicants exceeds the number of available seats. Consequently, once it has been determined that the applicant meets the MINIMUM criteria, he/she is admitted on a rolling admission process.

If you wish to progress after completion of the PN Certificate to the Advanced Placement Option, then a grade of B or higher is required in ALL sciences. All Sciences may only be taken twice (2 times) in order to attain the necessary "B" grades for acceptance.

Wait List Status

A primary wait list is created for qualified practical nursing applicants who are not initially accepted into the program. The Wait List is 50% of the option capacity. Once the primary wait list is full, an extended waitlist will be created. If there is an opening on the primary waitlist, a student from the extended waitlist will be moved to the primary wait list. Students are admitted to the program from the primary waitlist on a space available basis. Students who are placed on the primary wait list, and for whom a seat does not open during the current admission cycle, are given first option on admission for the following year. Those students not moved from the extended waitlist to the primary wait list will need to reapply. Students can only be deferred one time before being required to reapply. **Students who are accepted or are on the primary waitlist are also required to attend Orientation, no exceptions.**

If there are significant changes in the admission criteria, students on the waitlist may be required to comply with the new criteria. This decision is at the sole discretion of the academic program faculty.

Health Requirements

Information regarding the College's health requirements will be sent to you upon your acceptance to the program.

Information about the Program's Technical Standards that describe the physical and behavioral characteristic required to successfully complete the program are available [at our website](#), and we encourage you to review these as soon as possible.
