

TECHNICAL STANDARDS
for
CLINICAL RESEARCH
COORDINATOR

Student Name: _____

Student ID # : _____

Telephone # : _____

To the examining physician or nurse practitioner: As you complete this form, please consider the applicant's physical ability and behavioral characteristics. In doing so, please review carefully the General Job Description as you evaluate the applicant's ability to meet the Technical Standards specified for the health professions program that he/she is preparing to enter. The College complies with the requirements and spirit of Section 504 of the Rehabilitation Act and the Americans with Disabilities Act of 1990. Therefore, to the extent practical, the College will endeavor to make a reasonable accommodation for an applicant with a disability who is otherwise qualified.

General Job Description: The clinical research coordinator is a professional, multi-skilled person who assist with conducting clinical studies and trials for the development of new drugs and protocols, medical devices, and diagnostic tools. The clinical research coordinator must be able to communicate effectively and have attention to detail.

Directions: Check the appropriate box for each of the following physical standards. All "No" responses require a written explanation in the space provided below, and will be used by the College during its review for reasonable accommodation.
