

Student Name: _____

Student ID # : _____

Telephone # : _____

To the examining physician or nurse practitioner: As you complete this form, please consider the applicant's physical ability and behavioral characteristics. In doing so, please review carefully the General Job Description as you evaluate the applicant's ability to meet the Technical Standards specified for the health professions program that he/she is preparing to enter. The College complies with the requirements and spirit of Section 504 of the Rehabilitation Act and the Americans with Disabilities Act of 1990. Therefore, to the extent practical, the College will endeavor to make a reasonable accommodation for an applicant with a disability who is otherwise qualified.

General Job Description: Phlebotomy technicians draw blood from patients and prepare specimens for testing or storage. They work in hospitals, physicians' offices, laboratories, clinics and blood banks. The phlebotomy technician must possess excellent interpersonal skills, be capable of multiple tasking in a fast paced and at times high pressure environment.

Directions: Check the appropriate box for each of the following physical standards. All "No" responses require a written explanation in the space provided below, and will be used by the College during its review for reasonable accommodation.

Frequency Key: O = Occasionally (1-33%) F=Frequently (34-66%) C=Constantly (67-100%)
