2 - Retention rates include students remaining in any program, not necessarily the program they started in when they entered in the fall

3 - The number of graduates is based on the number of students from the cohort that started in the fall of the corresponding academic year and graduated from any program.

4 - Fall-fall retention includes students who graduated, transferred to a 4 year college, or remained at NECC.

5 - The number of transfers is based on the cohort of students that started in the fall of the stated academic year; students that transferred within that academic year to a 4 year or higher institution are counted.
