

ARTICULATION AGREEMENT

Between the

Associate in Science Degree in Computer & Information Sciences:
Information Technology Option

Of

Northern Essex Community College

and the

Bachelor of Science in Computer Information Systems

Of

Lyndon State College

Fall 2016

This articulation agreement has been established between Northern Essex Community College and Lyndon State College. This agreement was developed with the intent of facilitating the transfer process from Northern Essex Community College (NECC) to the established Bachelor Degree Completion program offered by Lyndon State College (LSC) on the Lawrence campus of NECC. These agreements will serve as a guideline for those who desire to transfer from Northern Essex Community College into the Bachelor of Science in Computer Information Systems offered by Lyndon State College.

Students completing the AS Computer & Information Sciences degree with the Information Technology (IT) Option, in accordance with the minimum standards as set in this agreement by Lyndon State College, will be admitted to Lyndon State as juniors. Such students will qualify for the Vermont In-State tuition rate for courses taken through Lyndon State. Students who do not meet the aforementioned minimum standards will be considered for admission on a case-by case basis.

OBJECTIVES:

1. To encourage the transfer of qualified students from NECC to a LSC Bachelor Completion Program situated on the Lawrence campus of NECC.
2. To award academic credit for courses completed at NECC that meet the terms of the Associate in Science degree as stated in the agreement for transfer to the Bachelor in Computer Information Systems.
3. To provide effective and concise guidelines for students intending to transfer to a Bachelor Completion Program at Lyndon State College. Students will have accurate and clear information regarding the transfer of their coursework.

TERMS OF THE TRANSFER ARTICULATION AGREEMENT:

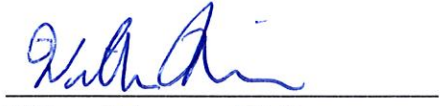

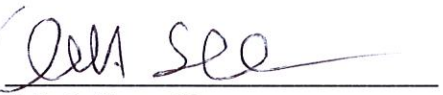

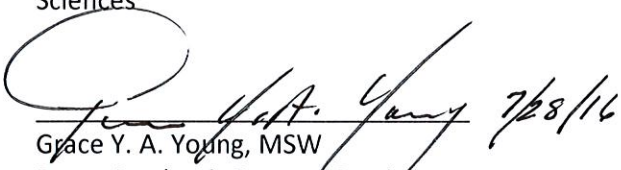

1. Lyndon State College guarantees the acceptance of students who complete the Computer & Information Sciences Associates degree with the IT option and have an overall GPA of 2.0 or higher to the Bachelor of Science in Computer Information Systems.
2. Lyndon State College guarantees the transfer of credit as stipulated in the attached program of study. This agreement assumes the completion of the Associate Degree and completion of the courses listed on the attached Program of Study. Lyndon State College requires that a minimum total of 120 credits must be completed to earn a Bachelor degree with at least 30 credits awarded from Lyndon State College. LSC agrees to accept up to 90 transfer credits from NECC into the program.
3. NECC students who have also completed the Mass Transfer Block will have the LSC General Education Unit requirements waived.
4. This document is based upon the evaluation of course descriptions presented to Lyndon State College. Courses as listed in this agreement will transfer to LSC provided a grade of C- or higher was earned.
5. Northern Essex Community College students interested in participating in this agreement should be advised to take suggested math courses as well as liberal arts electives that fulfill the Mass Transfer Block whenever possible. These recommended courses are listed on the program of study sheet.

This agreement shall remain in effect for a period of three years from the date listed below, with the provision that the terms specified herein will continue to apply to students admitted from Northern

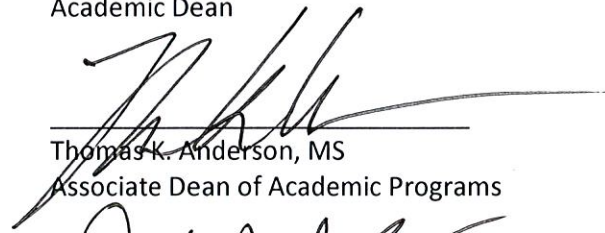

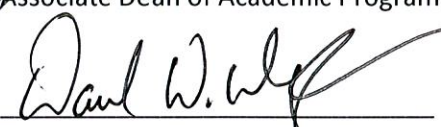

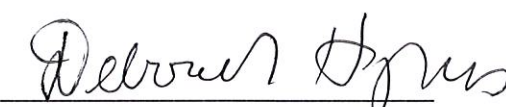

Essex Community College's Associate in Science Computer & Information Sciences, IT option within one year of the expiration of the agreement. Each institution agrees to provide timely notice to the other in the event of any modification to the curriculum that might affect compatibility for admission and transfer of coursework. This agreement may be subject to change, with notification, if curriculum requirements change at either institution. Students admitted to the NECC's Associate in Science degree program prior to such notification shall be admitted to LSC on the basis of this agreement.

Lyndon State College
BS Computer Information Systems with a Concentration in Information Technology

In order to graduate from Lyndon State College with a Bachelor of Science in Computer Information Systems, students must have a **minimum of 120 credits (30 credits hours must be from Lyndon State College)**. Students who graduate with an Associate Degree in Computer & Information Sciences: Information Technology from Northern Essex Community College may enter the Bachelor of Science in Computer Information Systems program. All college-level courses from an accredited institution will be accepted by Lyndon State College (non-credit courses and remedial/developmental courses will not be accepted) and applied where possible to the credits required to reach the 120 credits necessary to complete a bachelor's degree.
