REQUIREMENTS

- Complete an Associate degree with a minimum of 60 credit hours, exclusive of developmental course work and D grade course work.
- Achieve a cumulative grade point average of not less than 2.0 (in a 4.0 system) as calculated by the community college.
- Follow the appropriate program of study as agreed by both institutions.

## GENERAL REMARKS

It is agreed that community college graduates will not be required to take College Entrance Exams of ACT exams prior to transfer to the receiving institutions.

It is agreed that in order to complete the baccalaureate degree, a student who transfers under this agreement may be required to take no more than 68 additional credits unless:

- a. the student changes his or her program upon entering the receiving institution.
- b. the combination of additional general education requirements, if any, and the requirements of the students's major at the receiving institution total more than 68 credits.

Under the terms of this agreement, transfer students will be subject to the same requirements as native students unless waived. "Native Student" refers to students who began their undergraduate education at the baccalaureate institution.

It is agreed that a transfer student may not be held to any degree requirements at the receiving institution that were established less than three years prior to matriculation at the baccalaureate degree granting institution.

The terms of this agreement shall apply for a period of three years: from the time that a community college student applies for dual admission until matriculation at the receiving institution.

It is agreed that students may apply for dual admission, under the terms of this agreement, at any point between admission to the community college and up to one year prior to matriculation at the baccalaureate degree granting institution.
